theaquascaper

# theaquascaper

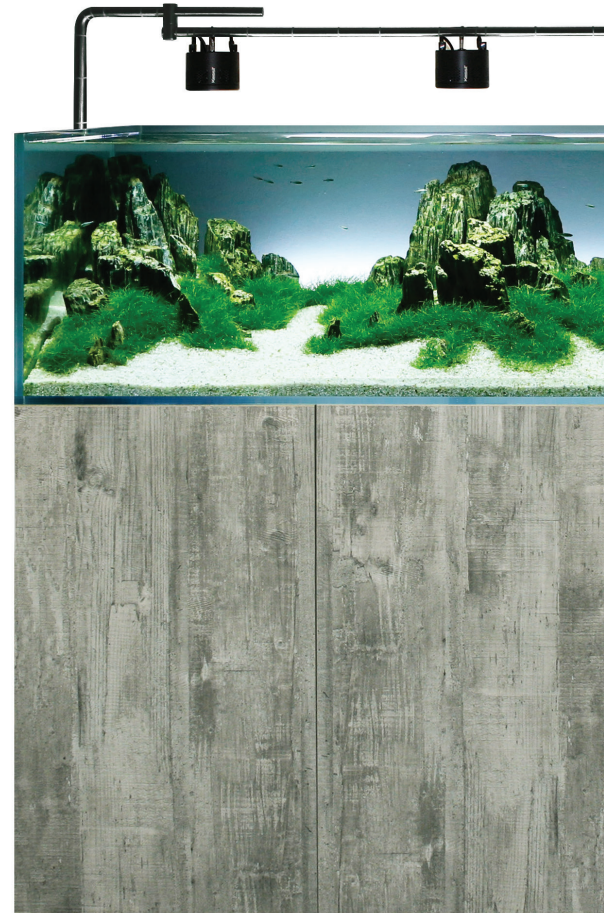

The Aquascaper range is specifically designed for the art of Aquascaping, being both practical for layout and maintenance, as well as being beautifully crafted, to enhance any space.

In order to design the perfect aquascaping aquarium, it's all in the detail. Ranging from 600mm to 1800mm, the aquascaper aquarium range suits all sizes and budgets, and is ideal for many different fish and plants, large or small.

The AS600, 900, 1200 and 1500 are all wider front to back than they are tall, making them ideal for placement of plants and décor, while being easy to reach into and decorate, and providing that all important perspective.

## Kessil®

# Quality aquariums

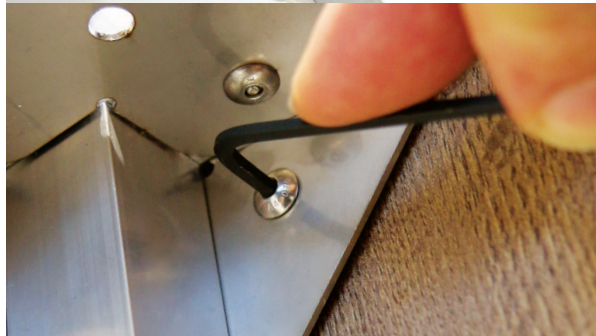

All Aquascaper aquariums are made from the finest quality, Ultra Clear low iron glass and are perfectly polished. Every model is sealed with the strongest clear silicone, yet with a minimal visible bond at the edges to minimise distraction.

The glass ranges from 8mm to 19mm, offering the ultimate in strength, integrity and safety while at the same time offering optimum clarity and viewing. And all come with a protective foam mat pre-fitted to cushion the base.

## Aluminium frame cabinets

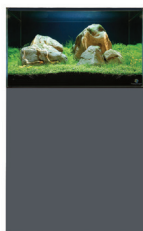

Aquascaper aquariums are available either on their own, or complete with an aquaFrame aluminium frame cabinet, available in 16 finishes.

The easy to assemble aquaFrame cabinets are made from aircraft grade aluminium and future proof your aquarium by enabling you to change the cabinet colours, from our range of 16 stylish cabinet finishes, without buying a brand new cabinet. All cabinets include adjustable feet and soft-close, push open doors.

The Aquascaper 1200

# Aquarium light hanging kit

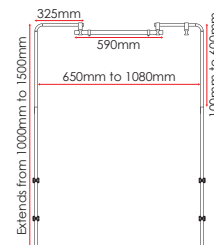

The light hanging kit from Evolution Aqua enables either side or rear cabinet mounting, or even wall mounting, and is both height and width adjustable. Any light can be attached to the hanging kit and if you side mount it, the view through the clear aquarium remains unobstructed for photography.

## 450 Size

**To fit aquariums up to:**

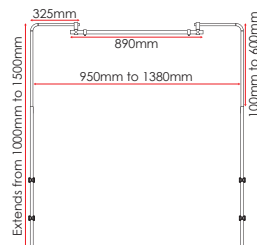

500mm in length (rear mounted)  
490mm to 830mm (side mounted)

## 600 Size

**To fit aquariums up to:**

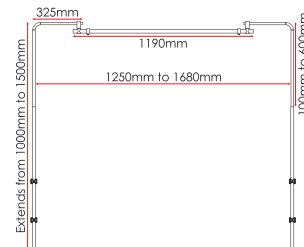

600mm in length (rear mounted)  
650mm to 1080mm (side mounted)

## 900 Size

**To fit aquariums up to:**

900mm in length (rear mounted)  
950mm to 1380mm (side mounted)

## 1200 Size

**To fit aquariums up to:**

1200mm in length (rear mounted)  
1250mm to 1680mm (side mounted)

# Accessories

## Complete liquid plant food

The Aquascape Complete Liquid Plant Food is designed to be dosed every day and includes all of the macronutrients and micronutrients that plants require. The simple to follow instructions explain exactly how much to dose for any planted aquarium, with a wide range of growing conditions from low to high energy systems. Available in 500ml and 1 litre.

## Glass pipework set

The Aquascape Glass Pipework Set combines style with practicality, and enables powerful external canister filters to be used in the cabinet below, with the minimum of visual distraction in the main tank above. Complete with inlet and outlet pipes, two diameters are available to fit 12mm or 16mm diameter hose. Each set comes with integral surface skimmer and an adjustable inlet screen.

# Lighting and accessories

Kessil®

Evolution Aqua are the exclusive UK distributors for Kessil Aquarium lighting. California based Kessil, a Di-Con company, have their roots in pioneering LED lighting for horticulture, and their Tuna Sun range of four lights are ideal for growing aquatic plants. Powerful yet controllable, Kessil manufacture their own proprietary blend of specially designed LEDs in the Dense Matrix Array, offering unrivalled shimmer across the aquarium and the most natural of looks. There's a Kessil light to suit every size of planted aquarium.

\*Mini gooseneck  
sold separately
