

# nexus™ Upgrade Kits

Evolution Aqua have now made it possible to **upgrade** older Nexus filtration systems to incorporate the new and improved features that are present on the current Nexus 220 and 320. Select the upgrade kit you need from the options below.

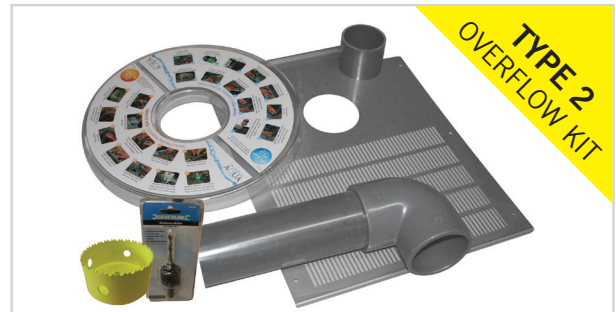

## **Nexus 220 and 320 Upgrade Kit**

*(For Nexus manufactured between 2006 - 2014)*

The Nexus 220 and 320 Upgrade Kit upgrades the EAZY in Nexus filtration systems manufactured between 2006 and 2014, to the very latest EAZY used in the 220 and 320. This kit contains all the components you need to make this upgrade.

EA Code: **EAZYUG320**

## **Type 2 - Nexus Overflow / Universal By-Pass Kit**

*(For Nexus manufactured between 2006 - 2009)*

The Type 2 Overflow / Universal By-Pass Kit allows you to add an overflow pipe to your Nexus 200 and Nexus 300 filtration system, that was manufactured between 2006 and 2009. This kit only contains the components needed to fit an overflow pipe and a lid.

# nexus Upgrade Kits

## Which upgrade kit do you need?

### Nexus 200 / 300 Manufactured before 2006

We have discontinued upgrade kits for this model.

**Nexus 200 / 300**  
Manufactured before 2006

### Nexus 200 / 210 or 300 / 310 Manufactured between 2006 and 2014

If you have this type of Nexus 200 or 300 filter you are able to upgrade the Eazy Filter to a Post 2009 Eazy filter as used in the Nexus 220 or 320.

To do this you will need:

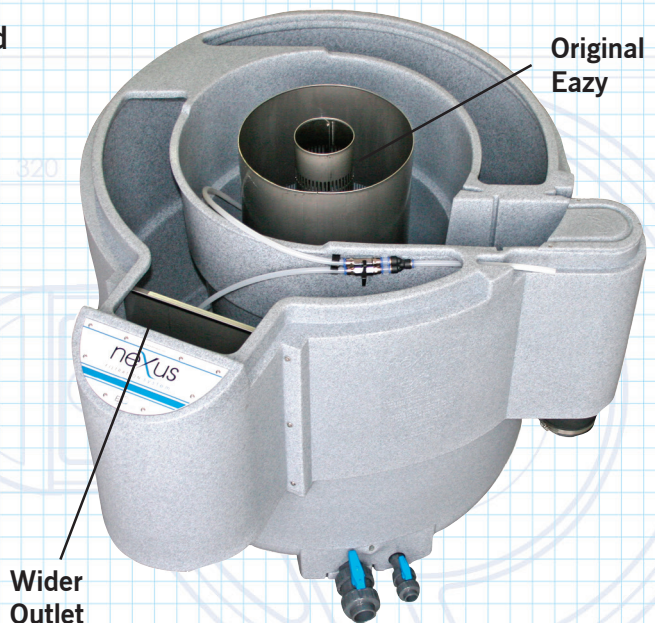

#### **Nexus 220 and 320 Upgrade Kit**

(Available for a Nexus 200/210 or a Nexus 300/310)

Additionally, you can install an overflow / by-pass kit on this model of Nexus 200 or 300.

To do this you need:

#### **Type 2 - Nexus Overflow / Universal By-Pass Kit**

**Nexus 200/210 or 300/310**  
Manufactured between 2006 and 2009  
With a Pre-2009 Eazy Filter
